Project Name	Emotion-Aware Learning Support Engine
Maximum Marks	1 Mark

Project Demo Planning

This document outlines the complete demonstration plan for the Emotion-Aware Learning Support Engine. The demonstration is organized to present the problem statement, solution overview, live system execution, feature demonstration, and final discussion in a clear and structured manner.

S. No	Demo Section	Description	Duration (mins)	Responsible Member
1	Introduction	Explain problem statement, objectives and project motivation.	2	Team Member
2	System Overview	Present architecture, workflow and technology stack.	3	Team Member
3	Live Demonstration	Submit text query, perform AI analysis and display results.	5	Team Member
4	Dashboard Gen.	Generate and view the analytics dashboard.	2	Team Member
5	Project Features	Explain semantic analysis, model processing and scoring.	3	Team Member
6	Questions & Answers	Answer evaluator questions and conclude the presentation.	3	Team Member

Demo Flow Summary

Step	Activity	Notes
1	Introduction & Problem Statement	Introduce the project and explain the motivation.
2	Solution Overview	Describe system architecture, modules and tech used.
3	Live Feature Demonstration	Show text upload, AI analysis, UI and dashboard generation.
4	Q&A; Session	Clarify questions, discuss future enhancements.
